

# State of Tennessee Drug List

The **State of Tennessee Drug List** is a list of preferred drugs for your prescription benefit. This list includes Generics and Preferred Brand drugs.

- **Generic** drugs are in lowercase *italics*. Not all covered generics are listed. Those listed are examples of what may be prescribed.
- **Preferred Brand** drugs are in CAPS. These are the most cost-effective brand-name drugs for you.
- **Non-preferred Brand** drugs are not listed. Most of these brand-name drugs are covered but will cost you the most.

**Generics are available in drug classes marked with § and should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name drug to treat a condition.

## PLAN MEMBER

Ask your doctor to consider prescribing a generic drug or a preferred brand-name drug from this list, if medically appropriate. Take this list along when you see your doctor.

### Please note:

- If you have questions about your prescription coverage or copays<sup>1</sup> you can:
  - Visit [www.caremark.com](http://www.caremark.com), or
  - Contact a CVS/caremark Customer Care representative toll-free at **1-877-522-TNRX (8679)**.
- For mail service, CVS/caremark may contact your doctor after getting your prescription. They may ask your doctor to consider a preferred brand drug or a generic. Your doctor may choose, when medically appropriate, to prescribe a different brand-name drug or generic in place of your original prescription.
- In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market.

## HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by CVS/caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is necessary, consider prescribing a brand name on this list.

### Please note:

- Generics should be considered the first line of prescribing.
- This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to [www.caremark.com](http://www.caremark.com) to check coverage and copay information for a specific medicine.

**FOR YOUR INFORMATION: Generics should be considered the first line of prescribing.** This drug list is a list of preferred drugs for your prescription benefit. It is not all-inclusive and does not guarantee coverage. In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market. This list represents brand products in CAPS and generic products in lowercase *italics*. Not all covered generics are listed. Those listed are examples of what may be prescribed. Unless specifically indicated, drug list products will include all dosage forms. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to [www.caremark.com](http://www.caremark.com) to check coverage and copay information for a specific medicine.

§ Generics are available in this class and should be considered the first line of prescribing.

1 Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.

2 A OneTouch blood glucose meter will be provided at no charge by the manufacturer to those individuals currently using a meter other than OneTouch.  
**For more information on how to obtain a free blood glucose meter, call toll-free: 1-800-588-4456.** Members must have CVS Caremark Mail Service Pharmacy benefits to qualify.

3 For safety reasons, to prescribe Lotronex, the physician must be enrolled in the Prescribing Program for Lotronex. Physicians must understand the benefits and risks of treatment with Lotronex for severe diarrhea-predominant IBS, including the information in the Prescribing Information, Medication Guide and Patient-Physician Agreement for Lotronex. To enroll or for more information on the Prescribing Program for Lotronex, call toll-free: 1-888-423-5227 or visit [www.lotronex.com](http://www.lotronex.com) to complete the Physician Enrollment Form. State of Tennessee and CVS/caremark do not manage the Lotronex Prescribing Program or operate the website. State of Tennessee and CVS/caremark are not responsible for the availability or reliability of the website's content. This listing does not imply or constitute an endorsement, sponsorship or recommendation by State of Tennessee or CVS/caremark.
